Correspondents are respectfully requested to write on one side of the paper only, as we do not want any matter that is not for publication.

H. W. WHEELER,
Manager of the GAZETTE.

We give a large proportion of our space this morning to an account of the coming of the Rock Island. Last night our citizens welcomed its officials in a hearty, generous way. No additional words in this paper are necessary to show the cordial good-feeling of this town toward the Rock Island and our joy at its arrival.

Mr. Patterson and his associates who are endeavoring to prove to the farmer that he gets no benefit from protection and is being choked to death by taxation, will find the following few lines from the pen of the distinguished free trader, Hon. Horace White, interesting reading. It shows the result of this over-taxation to be unprecedented prosperity. It is an undeniable fact that no other class of American workingmen are so independent, so intelligent, so well provided with comforts and leisure, or so rapidly advancing in prosperity, as our agriculturists.

One of the most notable demonstrations of the national campaign was the great gathering of workingmen who assembled in Indianapolis on Thursday to pay their respects to the republican presidential candidate. Ever since the nominations were made at Chicago the democratic campaign managers have been circulating false and slanderous stories relative to General Harrison's attitude toward the laboring class. No one who was familiar with General Harrison's record in public and private life on the labor question ever believed that these stories were anything but the most malicious of slanders. It was to be feared however that in the over-wrought state of excitement, that this effort to poison and prejudice the minds of those not acquainted with the general's record, backed by the perjured statements of those who pretend to be the friends of organized labor, might prove effective. The enthusiastic gathering on Thursday sets at last these fears at rest, and proves right down in the workingmen of the land that the libels against our candidate will not stick.

Elsewhere we publish a letter from Mr. F. S. Jackson, one of the board of registration for precinct No. 6, El Paso county, stating his views regarding the way voters should register on next Tuesday, the 30th. The law gives this construction of the law, and Judge Belcher has ruled accordingly, so on next Tuesday voters will register without taking oath. The only thing that will put upon the law is the fact that Mr. Joslyn probably gave the correct construction. According to Mr. Joslyn's construction only the same method as the 29th as three weeks before election. The statutes of section 801, state that registration shall take place three weeks before election. Section 111 states that registration shall take place on the Tuesday before election and on the Monday before election. At the close of the statute states that voters shall make oath. Mr. Joslyn construes this proviso as to apply only to the registration on the Monday before election and not to registration on the Tuesday before election which is on the same day. The arrangement of the law is such as to leave off the requirement of the weeks before election and to make it apply to the same week as the election. The law is so construed by the county clerk of Arapahoe county, and another method is impossible to have been in the mind of the legislature. It would be impossible to have been in the mind of the legislature.

The Election Law.

To the Editor of the Gazette:

My Dear Sir—If I [illegible] you consider the election law [illegible] make it necessary for voters to take an oath, as I do. I have written to get the books in order to [illegible] the oath.

The Board of the First [illegible] never so construed the law and [illegible] they will on the 30th [illegible] without oath, as written, [illegible] stated that I express the [illegible] voters of this precinct [illegible] system with the [illegible] of clerks.

Please consult [illegible] on law.

FALCON

Located at the Junction of the Great Rock Island and Pan Handle Railroads.

From the north, south, east and west, people are flocking in. There is an [illegible] magnetism about this place hard to resist. Everyone feels confident and sure that an investment in Falcon at the present prices on lots will bring a rich reward.

Occasionally there is a Real Estate coward who thinks the whole world is going bankrupt, who would not purchase at any price unless he could have a chromo thrown in.

We haven't any use for such people, notwithstanding we are glad to show parties what we have, whether they purchase or not. It is more gratifying to talk to a sensible and intelligent man who can appreciate the fact that we have something to sustain a town that our Pikes Peak Lots that [illegible] property will increase in valuation rapidly; that we have a beautiful little lake, a [illegible] Iron Springs, an elegant hotel, two large lumber yards, one weekly newspaper, a splendid climate to live in, plenty of coal, wood and water, besides a great many other items we might enumerate.

[illegible] payment on lots [illegible] years' time. This gives a poor man a chance to buy a lot, make the first payment [illegible] company's bond for a deed, build him a house and have a home of his own for what it would cost him for a year's rent in most any city in the state.

Therefore, take time by the forelock, get in on the ground floor and grow up with the town. Call on or address
